

# SUCCESS TRANSFORMATION

## Meet Dr. Walters

When we met Dr. Walters and John her husband last year and assessed their business, their **profit was less than 3%**. They knew they could do a lot better, so they decided to work with InSPAration Management.

### Transformation steps:

1. Assess their business
2. Began implementing the 7 Steps to 7 Figures & Beyond
3. They attended two seminars
4. They became High Achiever members
5. Trained the team on the business model we teach
6. Began implementation of the business model.

**Here are their year-end results: Drum roll please...**

## RESULTS

**Increased gross revenue by 83.20%**

**Increased net profit by 2,236.10%**

### Here is what Dr. Walters & John had to say!

*"Joining the InSPAration Management High Achiever program was the best thing we did. We are so happy with what we accomplished and will continue to accomplish now that Dori and her team are helping us open a second location and expand our team! The best advice we can give other medspa owners is not to reinvent the wheel. Inspiration Management have everything you need on **MedSpa Biz University**. Thank you, highly recommend them!"*

- Dr. Walters & John

*Dr. Walters also attended the book writing seminar, and now, she is a published author.*
